The Golf Course is a testing 6289 yards and with a par of 71 is a genuine challenge for all handicaps. Whitefields Golf Club and the Course has it's own natural drainage and has rarely closed. With Draycote Water lapping the 13th hole, stunning views can be found all year round.

The signature hole is surely 'Curlies Corner'. This hole has no room for error. At 184 yards from the medal tee, the green, surrounded by water, potentially can ruin a good card. The 15th is also a nerve tester, at just 257 yards par 4 and aptly named 'Temptation' it has water on both sides of the hole, which needs a good drive and nerve to reach the green from the tee.

Our members also enjoy 18 hole putting green, a 16 bay floodlit driving range, practice chipping and bunker practice area.
